

COMPLETE LAYER FEED

P1302

Single-phase feeding ration for laying hens

- Meets the nutritional requirements of laying hens from point of lay until depletion.
- Highly digestible protein to optimise body frame development.
- Feed is highly palatable to encourage feed intake and growth.
- Single-phase feeding system allows for simplified feed flow management.

Composition

Nutrient	Specification ^{1,2}	Min/Max
Protein	150	Min
Lysine	6	Min
Fat	25	Min
Fibre	70	Max
Calcium	35 – 45	Min to Max
Phosphorous	3	Min

TEXTURE AND PACKAGING:

Texture: Mash or 3.2mm pellets

Packaging: 10kg and 40kg bags

Animal Group:

Layers

Class:

Complete Laying Feed

Objective:

Complete Layer Mash is developed to meet the nutritional requirements of laying hens from point of lay until depletion.

Feeding Instructions:

1. Feed *ad libitum* from point of lay. Feed intake of 115g/day can be expected.
2. Fresh feed and water must be available at all times.

General:

- Contains at least 5% genetically modified organisms.

¹ Reflects minimum and maximum values for registration purposes. Actual nutrient values might be higher than minimum specifications and lower than the maximum specifications.

² Unit g/kg
